Abstract

Provide a concise summary of background, methodology, results, and significance. Avoid excessive abbreviations and do not cite references in the abstract.

1. Introduction

Introduce background, motivation, and context of the study.

2. Methodology / Approach

Describe experimental design, analytical methods, or reasoning process.

3. Results and Discussion

Present findings, interpretation, and discussion of implications.

4. Conclusion

Summarize key insights and lessons learned.

Acknowledgment

Optional.

Conflict of Interest

The authors declare no conflict of interest.
